# PRESS A RECORD WITH DIGGERS FACTORY

When you want to press a disc with Diggers Factory, it is necessary to submit a request to the SDRM (Société pour l'Administration du Droit de Reproduction Mécanique), a subsidiary of SACEM.

By contacting the SDRM, you fulfill your obligations towards the authors, composers, and publishers whose works you wish to reproduce.

In other words, you pay a royalty only if the tracks are part of the SACEM repertoire, so that the authors, composers, arrangers, and publishers of those tracks receive the copyright royalties owed to them.

THE AUTHORIZATION REQUEST - *step 2*

The next step is to add the tracks:

SUPPORT INFORMATION:

→ First, click on the icon

This action redirects to a new section divided into two parts:

IDENTIFICATION SUPPORT:

This step involves filling in all the necessary information.
Your reference number corresponds to the "CAT Number", available in the production portal under "Information" on the Diggers page related to your project.

WORKS ADDED:

For each track, enter the "Type of work," "Title of the work," and "Duration of the work."
If there are multiple rights holders, click on **NEW BENEFICIARY**

Move to Track 2 by clicking on **NEW TRACK**

Once all tracks have been added, click on **SAVE**

END OF THE PROCEDURE

Once the information for each track has been saved,

click on **SUBMIT MY APPLICATION**

After accepting the SDRM's terms and conditions, you will have officially completed the procedure, and your request will be submitted to the SDRM.

Once the request has been processed, you will then need to pay the royalties to the SDRM, which will subsequently be redistributed to the rights holders by SACEM.

You will then upload the PDF to your project page on your Diggers Factory account.

If you encounter any issues, please do not hesitate to contact our team..
